## Report

### 1. Mission statement

University Library is a part of the University Information Centre, which is a specialized academic institution with all-university operation. The Information Centre was established in 1991 with an objective to support University activities, especially development of education, science and culture by collecting, storing and accessing information of all types.

### 2. Computer Networks and Internet connectivity

*Please tell your colleagues about your network type, protocols used, services provider, telecommunication equipment used, etc. below*

#### a. In general HW, SW:

a) Main backbone (metropolitan university network) - ATM, we have also FDDI in one locality so far. b) Local networks at faculties, library, and other univ. department - mainly 10 or 100 base Ethernet c) Servers, which provides main university information services works over several OS: IBM AIX, Linux, Novell, WinNT (our university network is very heterogenous as usual similar networks are :-)) d) Whole university network is connected to CESNET (our ISP) by two optical lines (1 Gbps and 2,5 Gbps)

#### b. New HW, SW; connectivity upgrades:

--

## Progress Report

---

### 3. Library automation

*Please tell your colleagues below what library automated system you use, what hardware you use to run it and which unusual modules do you use or develop*

#### a. In general HW, SW:

IBM RISC 6000/H50, AIX 4.2T-Series v.307 (earlier known as Tinlib)

#### b. New HW, SW, other:

We have developed (and still developing) our own Web OPAC (named TinWeb)(see <http://lib.upol.cz/cgi-bin/k6>)  
Tinweb is installed in about 45 libraries, and it is possible to send any query to each of them (or subset or all) from each one (see URL above).

### 4. Union catalogue

*If you run a Union Catalogue, please specify which software you use and which interesting features are linked to your UC*

#### a. Software used:

Our university union catalogue is completely managed in T-Series and accessed by our Web OPAC (see above)

#### b. New features:

--

### 5. Digital library

*If you run a Digital Library, please tell us more in following list items*

#### a. Based on your own production of digital documents:

Dokuments written by our university teachers and scientists are available at <http://publib.upol.cz/~obd>

#### b. If so, what is new in your digitalization programmes:

--

## Progress Report

---

**c. Based on external sources:**

The list of these resources is at <http://tin.upol.cz/eng/databaze.html>

**d. Important commercial web services accessible to your users:**

The same as above

**6. New in-house database**

*Any interesting databases?*

--

**7. Special web services**

*Something nobody else has? Or much better than any other place?*

--

**8. Electronic document delivery**

*Do you have or plan EDD? How do you fight EU Copyright Directive?*

--

**9. Research and technology development projects**

*Any other interesting R&D projects?*

--

**10. Other important projects**

*Anything else you wish others to know about your library?*

--
